ENTRIES FOR
THIS PRESTIGIOUS
NEW ANNUAL
PUBLICATION

A new showcase for Britain's housebuilding industry

Sustainability in Housebuilding is a new annual publication from the House Builders Federation (HBF) and New Homes Marketing Board (NHMB), publishers of the highly popular and acclaimed *Designing Homes For Life*.

Sustainability in Housebuilding will showcase many of the most imaginative and successful 'sustainable' initiatives in the UK housebuilding industry. Housebuilders and their suppliers are invited to put forward schemes or initiatives that they feel may be suitable for inclusion.

The publication will be structured around four main themes:

People
Environment
Efficiency
Prosperity

Within these four main themes, contributors are asked to focus on one or more of the following three areas:

Planning and design
Specification and construction

Life and living

Under *planning and design*, schemes and initiatives that are in the pre-construction stage are welcome and will be considered, along with those that are in construction or complete.

Specification and construction may suit companies that are benchmarking against Key Performance Indicators, and submissions are also welcome from those focusing on waste reduction in the construction process.

Life and living will major on initiatives that become important once the development is occupied (customer feedback, transport, landscape maintenance etc) and post-construction monitoring (recycled water use, energy consumption etc).

TO SUBMIT AN ENTRY

The organisation making the entry

Name

Contact Name

Address

Telephone

Email

The scheme, development or initiative

Name of scheme, development or initiative

Address (if applicable)

Planning Authority

Name(s) of key consultants - architect, masterplanner, landscape designer, consulting engineer etc

No of homes/size of site

Has the scheme/initiative received special recognition or won an award(s) in the past?

Further details, photographs, illustrations etc.

Please describe the scheme/initiative in no more than 500 words. Please use a separate sheet for this. Please also feel free to enclose any photographs, illustrations, plans etc to support your entry.
